Key Seminars
P.O. Box 75
Orangeburg, NY 10962

Dear Michele and Coralie,

I wanted to personally thank you for all of the effort and energy you put into making the training you did for Regeneron so successful. Your “Strategies for Stress Resistant People” seminar gave our participants concrete and specific techniques to use during stressful times.

The feedback from seminar participants indicated you provided the tools necessary for people to use on their way to leading a more productive and stress-free life. As the year unfolds and learning and leadership development projects are identified, I am happy to keep Key Seminars in mind for anything that may fit your offerings.

I am looking forward to working with you again. Best regards for a productive and “stress resistant” 2009!

Sincerely,

Richard A. Montanaro
